ELEMENTARY EDUCATION

B.S. IN ELEMENTARY EDUCATION

The Bachelor of Science in Elementary Education curriculum provides the beginning teacher with the knowledge, dispositions and skills essential for becoming reflective professionals who critically examine teaching practices, make informed decisions and solve problems.

Teaching is no different from any other profession in this regard: its effectiveness depends to a large extent on the capacity of its practitioners to exercise reasoned judgment, which depends upon a sequence of cognitive and behavioral operations involving the processing and evaluation of information.

Lead teachers are those who incorporate a rich understanding of content knowledge and best professional practices through inquiry and leadership.

DEGREE REQUIREMENTS

Completion of a B.S. in elementary education requires 131 credit hours and a minimum of a 2.5 GPA.

COURSEWORK

General Education Requirements:

Students should consult with the department for additional information concerning prerequisites, course content and academic counseling.

PROGRAM HIGHLIGHTS

The Teacher Education Program (TEP) begins in the sophomore year for Teaching All Learners/Elementary Education students and focuses on helping students acquire the knowledge and skills necessary to become a reflective professional. This program is based upon the School of Education's (SOE) Agents of Change Model. The research-based conceptual framework for this model contains nine program outcome areas: Communications Skills; Higher-Order Thinking Skills; Instructional Media Services and Technology; Learning and Development; School Culture and Diversity; Instructional Design and Delivery; Classroom Management; Assessment and Evaluation; and Professional Development.

The National Council for Accreditation of Teacher Education and the North Central Association of Colleges and Secondary Schools fully accredit the IU Northwest SOE curriculum. The Indiana Professional Standards Board has approved all IU Northwest SOE programs for teacher and administrative licensing through the bachelor's and master's levels.

WHAT CAN I DO WITH A B.S. IN SECONDARY EDUCATION?

The School of Education prepares students for careers teaching in general education and special education classrooms in grades K-6. Candidates who complete this program are eligible for the Early and Middle Childhood Generalist (K-6), Exceptional Needs—Mild Interventions, and the Reading Licenses.

HANDS-ON LEARNING

In the Student Teaching Program, the student assumes all or part of the responsibility for teaching in an elementary, special education or secondary classroom.

Students will learn how to successfully demonstrate the specific knowledge, performances and dispositions as required by Department of Education.

Students may participate in an interview with a representative of the school or agency in which the student teaching will be completed and obtain a favorable recommendation.

CLUBS AND ACTIVITIES

Students are afforded an opportunity to become involved in the Northwest Indiana Student Chapter of the Council for Exceptional Children and the National Education Association, both of which offer more opportunities for learning and experience related to a student's formal education.

RELATED DEGREE OPTIONS

- B.S. in Secondary Education
- M.S. in Educational Leadership
- M.S. in Elementary/Secondary Education
