

IMPORTANT NOTICE ABOUT LICENSING

Due to the implementation of a new online license application system, March 31, 2011, will be the last day online and paper license applications will be accepted by the Indiana Department of Education using the current Teacher Online Licensing System (TOLS).

After May 2, 2011, all license transactions and payments must be completed online via the new License Verification and Information System (LVIS). Instructions for completing an online application and payment after May 2nd will be posted on this website and on the state's website approximately 30 days in advance of the "go live" date for LVIS.

For educators whose licenses expired during the 2010-11 school year, your licenses are considered valid through the end of the school year.

Questions about the new online licensing system should go to the Indiana Department of Education at (317) 232-9010.
